(Signed) W. H. MORRIS, Pres. W. M. WILLIAMS, Sec. Citizens Relief Committee.

Fraud and Mismanagement of Bank Officers.

By Cable to the News.

LONDON, Oct. 19.—The Times' financial article commenting on the official report of the investigation into affairs of the city of Glasgow says: The shareholders will now have some light thrown upon the condition of the bank's

affairs, and the most sombre light it is. The bank has lost on the most moderate and favorable estimate, six million two hundred thousand pounds. This is the most disastrous statement for the unhappy shareholders, and we hardly say that a long list such as this could never have fallen on them but for the reckless mismanagement to begin with, and deliberate and long continued fraud practiced to hide that mismanagement. The story set forth in the report is one of the most disgraceful in the history of banking.

Meeting Maryland Jockey Club by Telegraph to the News.

BALTIMORE, Oct. 19.—The fall meeting of the Maryland Jockey Club, which begins at Pimlico race course next Tuesday, promises to be one of the finest and best attended ever held by the Club. About 100 horses have arrived at Pimlico, representing the following stables: J. McDonald's, L. L. Lewis and F. Stearns, Jr., Thomas P. Puryear & Company, E. A. Clabough's, Geo. Lorillard's, Owens & Caldwell's, Freming's, Thos. W. Doswell's, C. E. Brown's, Burch's, Gov. Bowie's, C. W. Medinger's, James Jennings', T. B. & W. R. Davis', Payne's, McMahon's, A. D. Browne, Daly Bros., Reicor's, Dwyer's Bros., Zuscider's, Welcher, Taylor's, D. McCarthy's, Babcock's Fitzpatrick's Charles Reed and P. Lorillard.

The Tariff Laws of Chili by Telegraph to the News.

WASHINGTON, Oct. 19.—The Treasury Department has received the new tariff law of Chili, in pursuance of which foreign produce on merchandise must pay 26 per cent. on its valuation upon its introduction for consumption in that country, except upon articles of luxury which must pay 35 per cent. On hardware and ironmongery a duty of 15 per cent., precious stones and jewels, 4 per cent. Bar steel, tar, anchors, wire-ropes, cables of large size, and coal, admitted free of duty.

Many Failures Expected.

By Cable to the News.

GLASGOW, Oct. 10th.—It is estimated that the city of Glasgow banks deposit will fall officially on about two hundred of the wealthy share holders. Many failures in this city and throughout the country anticipated as the consequence.

ATHENS, Oct. 19.—After a long debate, the government's policy of the Chamber passed a vote of confidence by 69 votes to 63 noes.

DUBLIN, Oct. 19.—Dr. Isaac Britt refuses to participate in the Home Rule Conference, which meets here on the 21st instant, or the public meeting to be held in connection therewith on the 22nd.

BERLIN, Oct. 19.—The Socialist bill will be passed to day or Monday, and parliament will immediately thereafter be prorogued.

PARIS, Oct. 19.—Minister Noyes has sent \$4,000 to Secretary Evans for the yellow fever sufferers.

HAVRE, Oct. 19.—The Ville de Paris from New York was off the Lizard at 1 o'clock this afternoon. The American sailing vessel to-day was vacated.

The President, Treasurer and Secretary, and the faithful Superintendent closed their offices and moved into the city, where the business of the Fair of 1878 will be finished.

THE STATE FAIR.

Last Day-Award of Premiums.

Etc.

Yesterday was the last day of the Eighteenth Annual Exposition of the North Carolina Agricultural Society. The closing scenes of a fair are never attractive. An interesting programme had been arranged, but the slim attendance did not warrant the management in executing it. The fine racers had a few other points, some going to Atlanta for the Georgia Fair, which begins Oct. 29th. The shows had all disappeared, so there was no program of interest except the announcement of the award of premiums by the judges and the sale of the fine herd of Devon cattle from Linwood farm, by Colonel Thomas M. Holt. This was a rare opportunity for parties desiring excellent stock, and quite a number of bidders were in attendance. The crowd anxiously awaited the announcement of the

AWARD OF PREMIUMS.

At 10:30 A. M. Capt. C. B. Denson, the polite and efficient Secretary of the Society, read the report of the Judges of the different departments. There was no grumbling or signs of dissatisfaction manifested. The exhibitors appeared to be satisfied and at the conclusion of the reading of reports,

THE DELIVERY OF PREMIUMS

began. This was something unusual in the history of the fair, and the action of the management was highly commended by the exhibitors. However, for the payment of premiums has been delayed from ten to thirty days, thereby causing great inconvenience to the parties interested. The publication of the award of premiums is necessarily delayed for day or two, and the delivery of medals and diplomas also, but we feel assured that the Executive committee will act promptly in this matter.

THE RACES YESTERDAY

Were mostly foot races. Notwithstanding the crowd on the grounds was small, spirit of fun prevailed all, except in the racing which was tearing up machines and traps of all kinds. Renters of every kind looked decidedly blue. They all swear they lost money on account of the rain Friday. But the Fair was a success in every way, we are satisfied.

Eight or ten foot races; mile, half-mile and quarter,—were had on the fair track yesterday. Capt. W. W. White, of Wake, and Gen. T. C. Gorman, of Buncombe, took the places of Col. I. K. Young and those other fellows who say "I'm in" to their stables.

By 7 P. M. all the grand stands were vacated. The President, Treasurer and Secretary, and the faithful Superintendent closed their offices and moved into the city, where the business of the Fair of 1878 will be finished.

Our Navy.

Washington Star.

The bureau officers in the navy department are preparing their annual reports, and some of them have already been submitted to the Secretary brief abstracts of which are being made for his annual report. These reports show that there are about 1,000 vessels in the foreign stations, and eight or nine more in the course of preparation to be sent abroad.

There are none in the Gulf—those that were there having been sent north on account of the health of the officers and crews, and because there was no special reason for them to remain there. The navy now has about fifty vessels of various classes in sea-worthy condition, apart from eight or nine monitors, which are more particularly intended for home defence.

The opinion is expressed that there should be at least one hundred vessels in order to meet all requirements.

The personnel of the navy is represented to be in admirable condition. There are 7,500—1,100 in reserve.

These are on leave for three months, and liable to be called into service any time; besides the apprentice system affords a gradual supply of educated seamen for the navy, and hence there is no necessity for many new enlistments. The policy of the Navy Department is not to repair vessels which would cost 40 per cent over their original value. The weight of vessels is estimated to average 10 per cent, per ton.

The ship in addition, is confined to rilling and smooth-bore guns, the Rodman and Dahlgren seemingly going out of use. Experiments with torpedoes show their practicability, and efforts are made to perfect this means of warfare.

The fact is established and admitted by foreign military and naval officers that the gun powder used in our army and navy is much superior to any of their own in propulsive force.

Mines Purchased.

By Cable to the News.

LONDON, Oct. 19.—Col. W. P. Boyle, of the Arizona Pioneers, now in London, composed the purchase of the entire interests of English owners of the celebrated silver mines in the Saka Reta mountains, Tyndall district, Arizona, for Dr. H. R. Allen and his associates. The latter have made all arrangements to organize a strong company in New York to re-open these mines, so famous in the ancient history of Mexico.

WASHINGTON, D. C. Oct. 19th.—Green C. Chandler has been appointed Attorney for the Northern district of Miss., vice Thomas Walton deceased.

Foreign Failures.

By Cable to the News.

LONDON, Oct. 19.—Harman, Donald & Wilson, engineers at Raleigh, Scotland, failed. Liabilities seven thousand pounds.

From the Emperor of Germany.

By Telegraph to the News.

WASHINGTON, D. C. Oct. 19th.—The German minister yesterday received three thousand Reich marks from the Emperor William for the fever sufferers, and to-day handed it over to secretary Evans.

Brick-making by Steam.

There has been established lately in Baltimore the second factory in the country for making bricks by steam—the other establishment being in Washington—which is said to be able to make 200,000 bricks each day.

After it passes through iron rollers, which turn the large ones, is carried to the top of the building and thence falls into the disintegrator, which makes 450 revolutions per minute. Here it is reduced to a fine powder and passed off into a pipe where, by the addition of steam, it is moistened enough to give it the consistency of a paste.

We can't see why the world should be so hard to find because they desert making ships. Does it never occur to people to think how awfully bad it would be for the rats if they were picked last fall.

The young gentleman who had their hair cut with lawn mowers and jack planes this summer are now apprehensive that the frost will catch their hairs.

Wait until the moon goes down before purchasing your chickens. Poultry are always cheaper in the dusky hours that precede the dawn. Do not buy fancy eggs for hatching; do not buy any that were picked last fall.

A New Light for Railroad Cars.

Springfield Republican.

A New Haven gentleman who has been much bothered by the unsatisfactory light afforded the lamps in railroad cars has invented something which seems promising. The contrivance is described as follows: Outside of the car, upon the end of the roof, is a kerosene lamp. Leading from it to the other end is a tube, say a foot and a half in diameter, through which the light is thrown by a reflector placed behind the flame. This tube runs along the roof, next to the ventilating ducts, and several points it is "tapped" with light. At these points a reflector in the tube sends the light into and across the car, through holes similar to the ventilating holes, and when the lights are once inside it is sent down to the seats by other reflectors placed inside.

The Sheriff's office was crowded
yesterday by tax payers settling up for
1878.

Cotton was dull and declining
yesterday, both in New York and Liver-
pool.

The side show men yesterday pitched
their tents on the court house green.

The fluid flowed freely yester-
day afternoon, and consequently the
police made several arrests.

George D. Cook, is putting
up his residence on State street.

John Wright, for an assault
on a man, was yesterday sent on to
trial by the Mayor.

Pockets were on the Fair
grounds last Thursday. A gentleman
from Fayetteville had his pockets
picked of a large amount of money.

There will be a regular meeting
of Hiram Lodge, No. 49, to-morrow
evening at 7:30 o'clock. Punctual at-
tendance is des red.

That Leather.

The only entry of leather, at the
Fair, was made by a Buncombe man,
who entered a lot of sheep skins, tan-
ned by the Barnes & Tocum process.
A lot of other hides, tanned by the
same process, was also on exhibition.
This process revolutionizes tanning.
To tan a cow's skin, it takes the time
to get the hair off, and then it becomes leather,
after twelve months' intermission. By the
Barnes & Tocum process, the toughest
hides can be tanned in 30 days, a
cow skin in 20, and a sheep skin in 3
days. The samples on exhibition, tan-
ned in Buncombe county, were superb.
It required repeated assurances (and
then we had our doubts), to convince
us that the exhibit of tanned sheep
skins was not fake.

The entry of this leather was rather
late, but of course a well-deserved pre-
mium will be given.

Union County.

A correspondent of the News, writing
from Monroe, in Union county,
states that he is in session this week
writing Schenck, pressings. The crimi-
nal and civil dockets are both large, and
it would take over two weeks to dis-
pose of them. Speaking of the growth of
Monroe, our correspondent says: "Any
one who had seen Monroe ten years
ago would be very much surprised on
visiting it now. Then it was a small
village of less than a thousand inhabitants
and doing scarcely any business; now it is a large town of at least
three thousand inhabitants, and has an extensive
trade throughout this section of the
State. Cotton is brought here from
all the surrounding counties of this
State, and South Carolina. The busi-
ness men here have their eyes open and
know what they are about; they know
how to bring trade here and how to
keep it. The town continues to grow as
rapidly as it has during the last few years, it will soon have
as large a trade as any town in the State.
The only objection I have to the people
here is that not enough of them
take the news.

Note and Board Stable.

Having this day sold our Livestock
and Omnibus line to O'Kells Stable, we
will give our personal attention to the
care of horses and mules, and will keep
a thorough going hardware man, he has
been raised to the business and knows
what and where to buy. He is a north-
ern man and is acquainted with all the
ins and outs of the business, knows the
manufacturers and all about their goods.
Call and see him, he will tell you
right, take my word for it, I have tried
him.

Yours. GIMLET.
